

Fabian Andres Fernandez Soto

Software Engineer

fabfernandez.14@gmail.com | (+506) 8687-8118 | Costa Rica | [LinkedIn](#)

SUMMARY

Software Engineer with 5 years of experience in web development, APIs, and SQL databases. Strong background in frontend and backend development, performance optimization, and database design. Experience building software from scratch, maintaining existing systems, CI/CD, and working in agile environments. Fast learner with high adaptability.

EXPERIENCE

SOFTWARE ENGINEER

Sistemas Galileo del Sur | Jan 2024 – Present

- Develop, enhance and maintain web applications using AngularJS (frontend) and NodeJS (backend).
 - Implement and test REST APIs using Postman.
 - Analyze, write, and optimize SQL queries, stored procedures, packages, jobs, and tables on Oracle.
 - Improve application performance through query and code optimization.
 - Users manage and secure with LDAP.
 - Implement ETL processes using Neo4j Aura.
 - Deploy applications using GitLab, AWS, and Docker.
 - Build software test cases with AI.
-

SOFTWARE ENGINEER

Procter & Gamble (Remote) | Nov 2022 – Dec 2023

- Developed, maintain and enhanced enterprise web applications based on new requirements.
 - Implemented solutions using ASP.NET, C#, JavaScript, and AJAX.
 - Analyzed and optimized complex stored procedures on SQL Server.
 - Created and maintained SQL Server jobs, tables, and procedures.
 - Improved application performance and system reliability.
-

FRONT-END DEVELOPER

5050 Capital Company | Mar 2021 – Oct 2022

- Developed frontend applications using ReactJS, including reusable components, Redux and hooks.
 - Implemented REST API integrations using NodeJS, ExpressJS, and Sequelize.
 - Implemented authentication and authorization using OAuth / JWT.
 - Translated UI designs from Figma into responsive layouts using Tailwind CSS.
 - Implemented CI/CD pipelines using GitHub Actions.
 - Managed tasks and sprints using Jira under Scrum methodology.
-

EDUCATION

Bachelor's degree

Universidad Nacional de Costa Rica | Feb 2016 – Nov 2020

SKILLS

Backend & Databases: NodeJS, SQL, Oracle, SQL Developer, SQL Server, MySQL, Neo4j.

Frontend: AngularJS, ReactJS, NextJS, HTML, CSS, JavaScript, Tailwind, Bootstrap, SASS, Google Map library.

Languages & Frameworks: JavaScript, TypeScript, C#, ASP.NET, .NET Core 5, AJAX, Entity Framework.

Tools & DevOps: Git, Docker, AWS, GitLab, GitHub Actions, Jira, Postman, Linux.

Architecture & Patterns: MVC, MVVM, Dependency Injection, Singleton, Adapter, Observer.

Languages: Spanish (Native), English (Advanced B2+).

SOFT SKILLS

Teamwork • Problem Solving • Adaptability • Fast Learning • Research • Project Management
